Powerful Career Networking and Insights Result from MIT Student Engagement with Xylem, Inc.

“The hype is real,” recalls Sophia Wu, SM candidate in the Technology and Policy Program at MIT, capturing her first impressions of World Water Week in Stockholm, Sweden. “Walking from the train station to the conference site that first day was so exciting. Everyone there was passionate about the same thing I am: water.”

Sophia joined three other MIT graduate students at World Water Week this year thanks to the support of J-WAFS and our Research Affiliate Xylem, Inc. Xylem has been a strong advocate for MIT student learning and growth opportunities since the beginning of its partnership with J-WAFS in 2016. Find out more about their MIT student engagement at and beyond World Water Week, including career opportunities, strategic relationships, and new insights that are sure to last a lifetime.

J-WAFS is an Institute-wide effort that brings MIT’s unique strengths to bear on the many challenges our food and water systems face.

Our program catalyzes MIT research, innovation, and technology for ensuring safe and resilient supplies of water and food while reducing environmental impact, to meet the local and global needs of a rapidly expanding and evolving population on a changing planet.
